

Simon Ikido – Simon Says

How to Play

The educator will be “Simon”, and Simon will be saying Anishinaabemowin commands to the children while doing the actions simultaneously. The children will act out the commands to better understand the meaning. Once the students have a better understanding and if they are ready, the educator can begin tricking the children by only saying a command and leaving out the “Simon ikido”. Just like the original Simon Says game, if Simon does not say to do something, whomever does the action is “out” or has to sit down.

Ji-izhichigeyin 1 – Commands 1

For the first commands book, the phrase to use is “Simon ikido, ____”. Fill in the blank with the commands used in the book below.

Simon ikido...
