

## Okaadi-Ginebig Odaminowin

Prepping the Game:

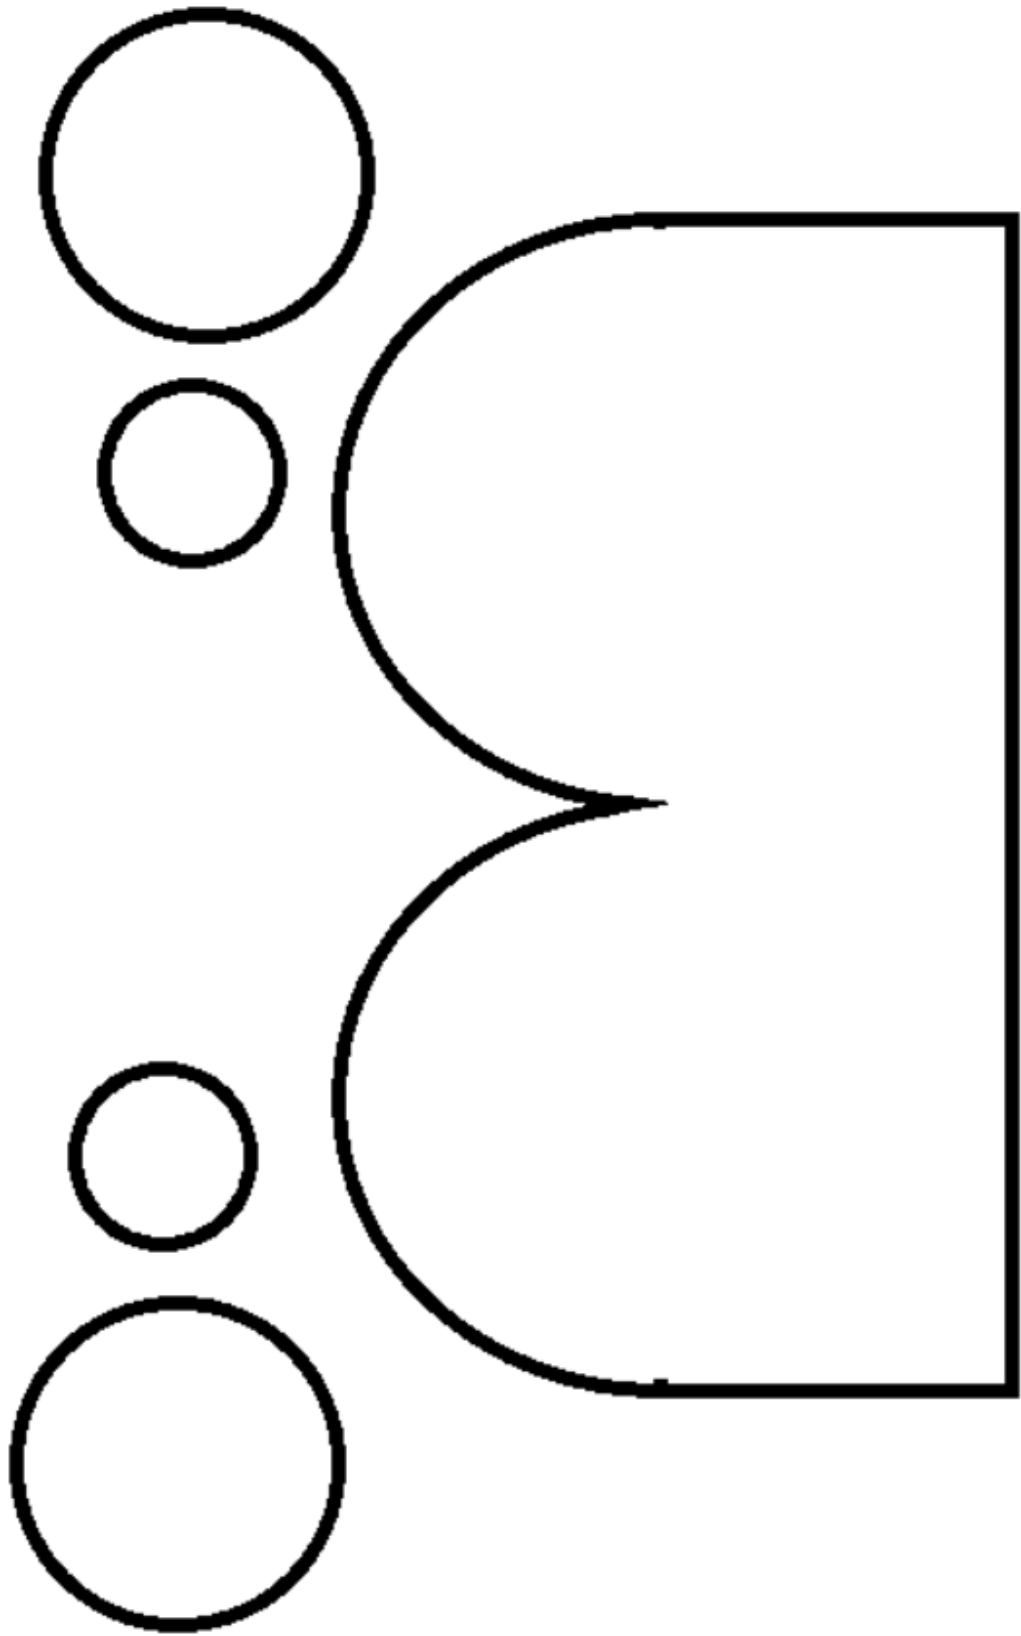

1. Be sure to use a large enough container that will fit 10 or more large cards in and to make sure the container is clean. A dishwasher tablets container works great!
2. Using the tracing pattern on the next page, trace out an crocodile head on a green foam sheet, and trace the eyes with white and black foam sheets. Cut the tracings and glue them together. Glue 2 any colour pompoms where the nose should be on the crocodile.
3. Glue the head onto the container - be sure to leave a flap for his mouth to open easily. When finished it should look something like this:

4. After leaving it to dry, you can add in the Mijjim/Wiisiniwin Cards.
