

Wiiyaw

His/Her Body

On each sheet you will find a different animal with lines indicating various body parts.

Along the bottom of each page is a selection of words describing their body parts.

Learners can cut these out and paste them onto the correct line for each body part labelled.

If they know more than what is offered, they can write and draw a line for additional labels as well!

Below is a list of body parts to learn.

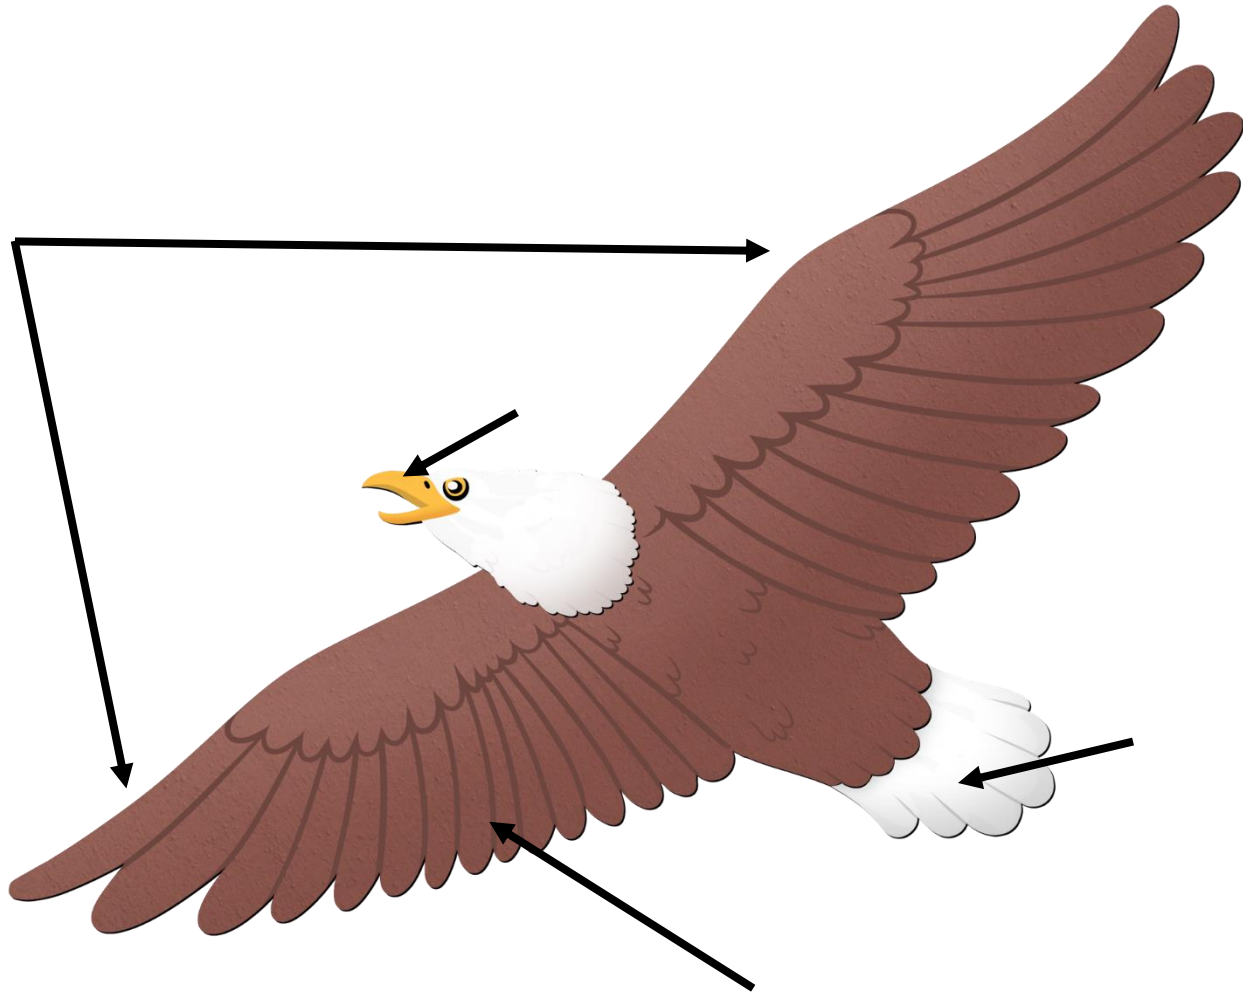

Anishinaabemowin	English
emikwaan	shell
onaga'ay	scales
oninjiganan	fins
ozhigwan	fish tail
ozhaga'e	skin
oshkiinzhigoon	eyes
otawagan	ears
ojaan	nose
odoon	mouth
wiibidan	teeth
oshtigwaan/otigwaan	head
ozidan	feet

Anishinaabemowin	English
ozow	animal tail
oningwiigana'	wings
omiishidoonaanan	whiskers
okoozh	beak
odeshkana'	antlers
ogaawiwa'	quills
ozhkanzhii'	claws
oganzhiin	hooves
obiway	fur
omiigwana'	feathers
okaadan	legs

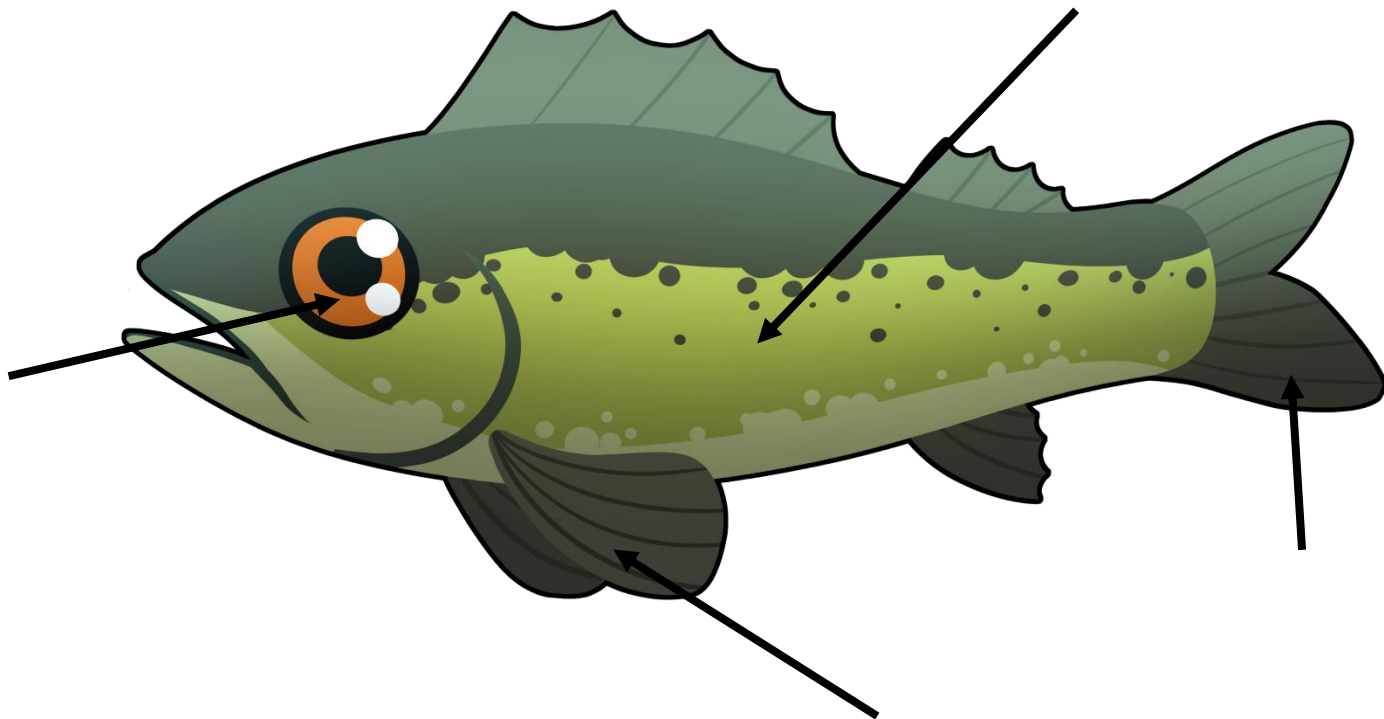

These are the most basic words for describing body parts of animals. Some animals, like a bear, have specialized words i.e. makwaninj – bear's front paw & makozid – bear's hind paw.

Notice how the word parts for the body part is included in these specialized words as well i.e. ninj – hand, zid – foot.

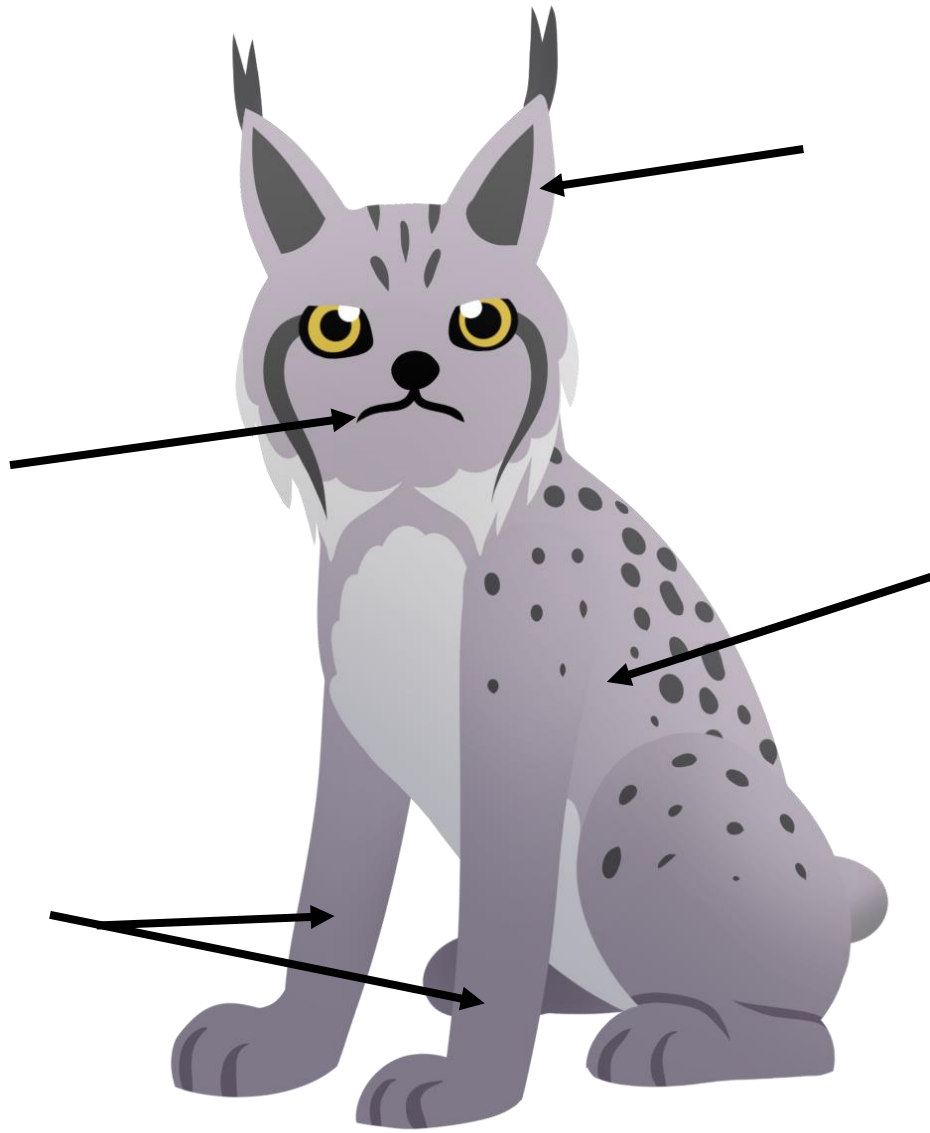

We encourage you to find these specialized words by speaking to your community language keepers, or by searching for them in dictionaries.
